EDUCATION

Vishwakarma Institute of Technology

B.Tech in CSE (Artificial Intelligence)

CGPA: 9.13

MAR 2026 - Present

Relevant Coursework: Data Structures & Algorithms, OOPs, DBMS

SKILLS

Technical Skills

C++, Javascript, SQL, Machine Learning

Databases

MySQL, DBMS

Tools

Git, GitHub, VSCode

PROJECTS

Safe Night Travel Companion – Web Application

Technologies: MongoDB, Express.js, React.js, Node.js, JavaScript, HTML, CSS

- Developed a safety-focused MERN stack web application to assist users during night travel with emergency support features.
- Implemented emergency alerts and one-click calling functionality to quickly contact trusted individuals during emergencies.
- Integrated real-time location sharing to help contacts track the user's location for enhanced safety.

Civic Issue Reporting and Resolution System

Technologies: React, Vite, Tailwind CSS, Node.js, Express, Python FastAPI, PostgreSQL, Redis, Machine Learning

- Developed a smart civic issue reporting platform that allows citizens to report problems like potholes, garbage, and streetlight failures with location and images.
- Implemented ML-based image classification and object detection to automatically identify the type of civic issue from uploaded images.
- Built a React-based frontend and Node.js backend with APIs for complaint submission, tracking, and resolution updates. Integrated maps, notifications, and cloud storage to enable location-based reporting and real-time status tracking of complaints.

AI Voice Detection API

Technologies: Python, XGBoost, FastAPI, Librosa, Render

- Developed and deployed a REST API to classify audio as AI-generated or human, addressing the risk of synthetic voice fraud.
- Extracted audio features (MFCC, Zero Crossing Rate, RMS Energy, Spectral Centroid) using Librosa and trained an XGBoost model for accurate voice classification.
- Built a FastAPI backend with API-key authentication, deployed on Render with ~2s inference latency and optimized using Joblib model serialization for production use.

EXTRA CURRICULAR ACTIVITIES

Finance Co-Ordinator

2026 - Present

Social Welfare and Development Committee, VIT Pune

Treasurer

DIVA Club, VIT Pune.

RESEARCH & PUBLICATIONS

Wireless Fingerprint Attendance Management System

Published in: [International Journal of Current Engineering and Technology \(IJCTET\)](#) | Vol. 15, No. 2 | March/April 2025

- Proposed and implemented a wireless biometric attendance system integrating fingerprint authentication, real-time clock, and cloud sync — validating end-to-end embedded + IoT development skills.
- Peer-reviewed publication; co-authored with Varsha Karandikar et al.; demonstrates research aptitude alongside engineering practice.
